WHEAT-The English market continues to improve, and the effect on the local situation is quite perceptible. There is a much wider range in conse quence between buyers and sellers, and legitimate trading is not quick. In many instances as high as \$1 65 is asked for choice shipping, and as exporters claim \$1 60 to be their limit, the absence of positive activity requires no explanation. activity requires no explanation.

At the call session of the Produce Exchange there was a lively demand for seller 18-3 contracts, and prices were carried up three quarters of a cent with comparative ease. Sales footed up 900 tons No. 1 White, as follows:

Buyer 1883—200 tons, \$1°02; 100, \$1°09 \$2° ctl.
Barley—Free descriptions are less buoyant, and it must be something extra to bring over \$5°c, while fair No. 1 grade sells down to \$9°2\$c \$6° ctl. Brewing is steady at about \$1° 20 \$2° ctl as a top figure.

On call this morning there was less enthusiasm on the part of buyers, and it required more accommodating rates than yesterday to induce any bidding. At last, after concessions of about 10° \$7° ctl had been made, there was some trading, amounting, in the aggregate, to 2° 200 tons, No. 1 Feed, as follows:
